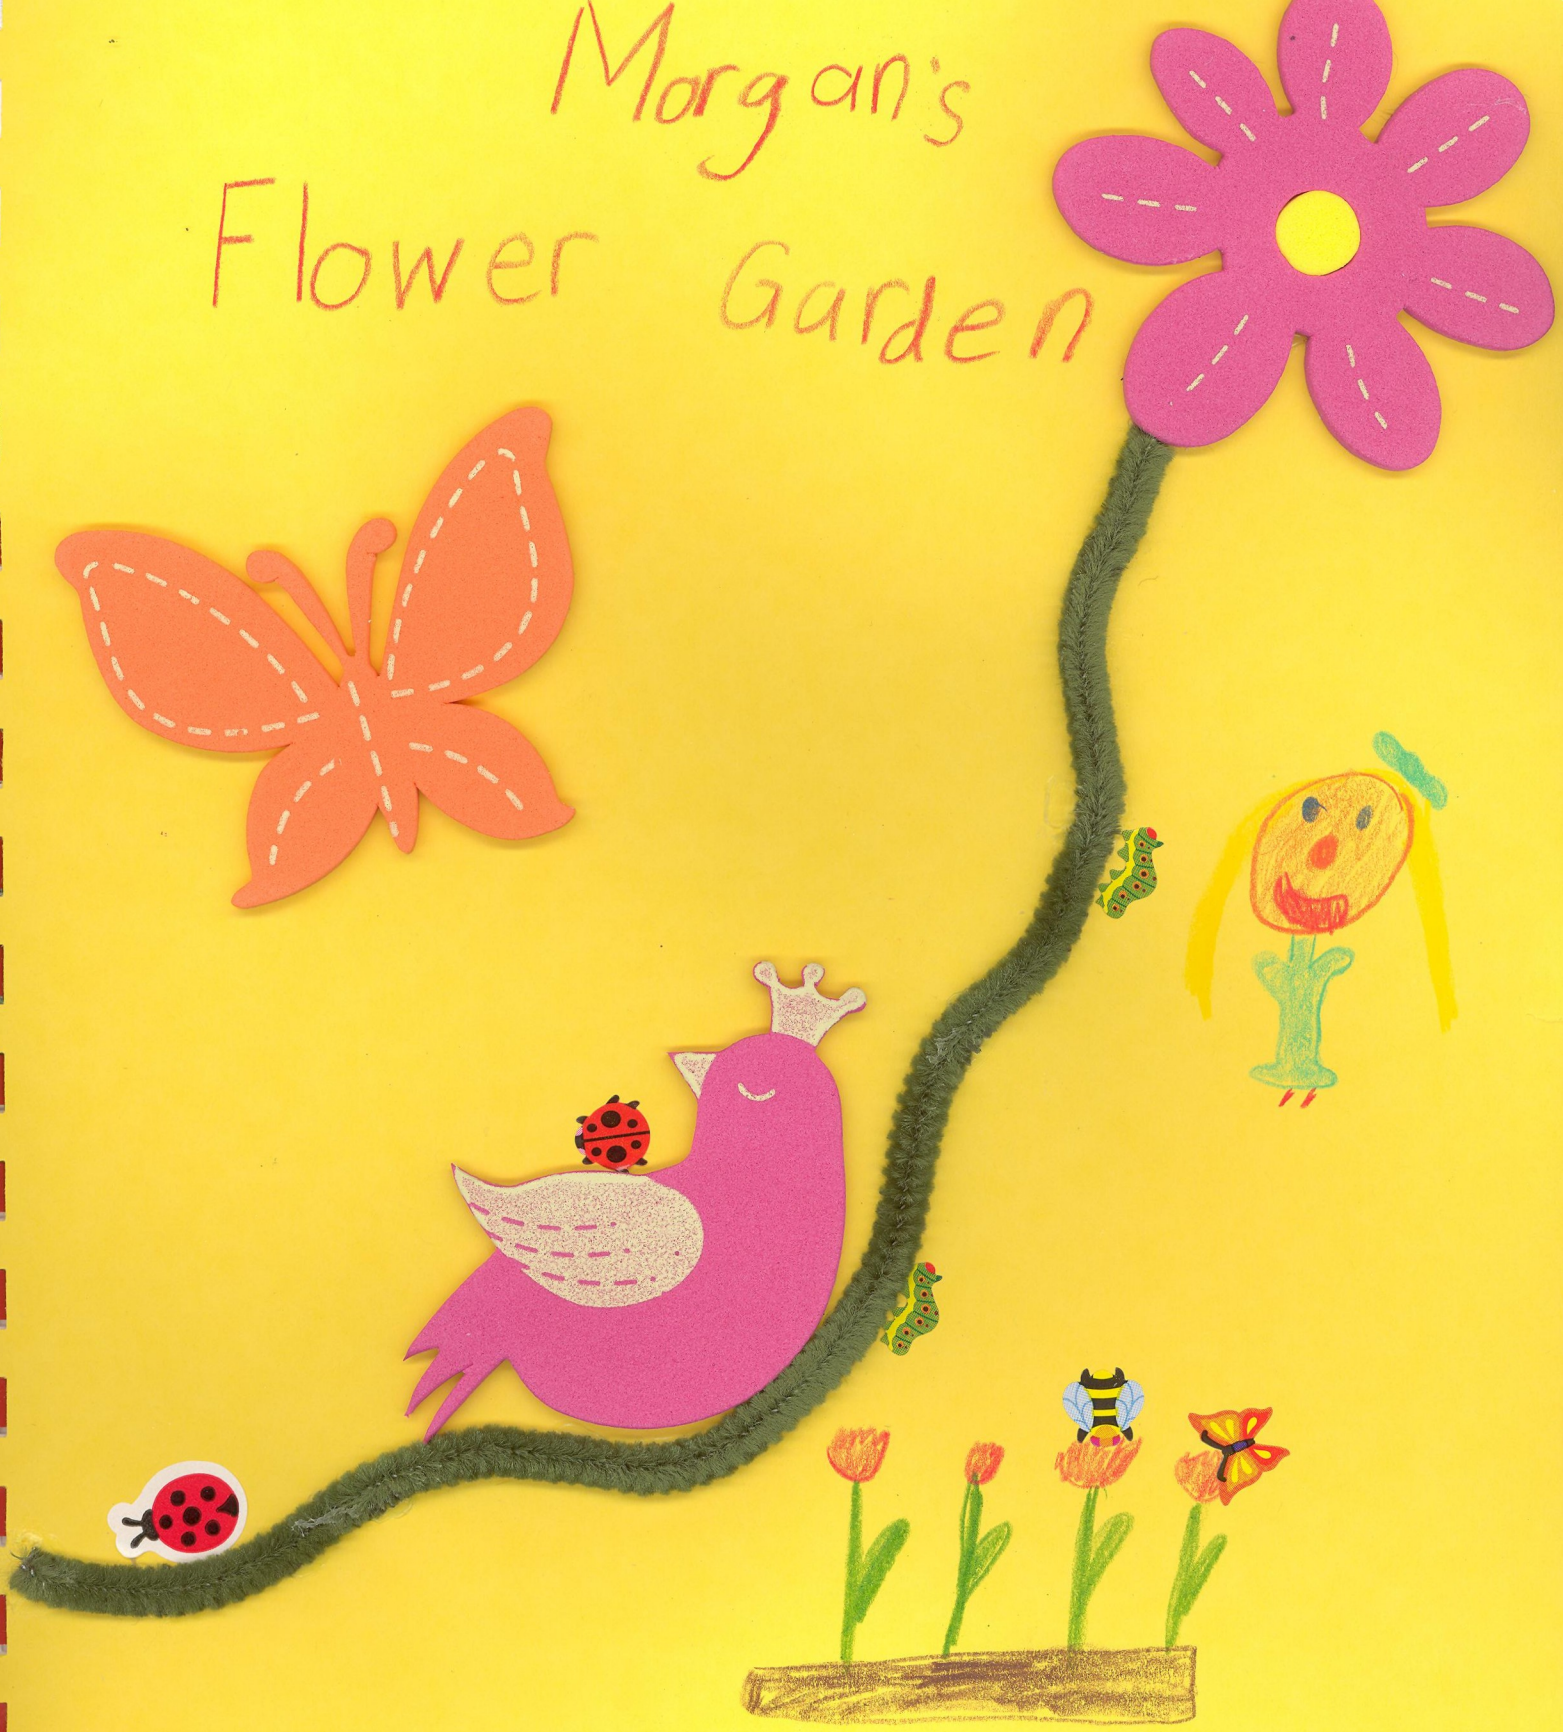
Morgan's FLOWER Garden

Morgan's Flower Garden



written and illustrated by

Spring is here.
It is time to plant
My flower
garden. First I
dig a hole.

Then I Put a seed in the hole. Then I cover it up. Now I water The seed.

The roots begin to grow. The sun shines down on the garden. a little tiny plant comes out of the ground.

The little plant gets bigger. Next we need to give it plant food and water. This will help it grow.

I like to watch my garden grow. I see a caterpillar in my garden. I see a ladybug and a butterfly.

I am really excited for my flowers to bloom

My flowers have bloomed. I am going to pick one. one of Them is pink and one of Them is Purple.

I cant wait to
Plant another garden
Next year!
